1 About Fundhost

Fundhost

Fundhost is a public company that acts as the responsible entity and provides essential services to the Fund. Fundhost's core business is to operate registered managed investment schemes and provide compliance, administration and registry services. We are responsible for the day to day operations of the Fund and have appointed Ganes to manage the assets of the Fund.

About Ganes

Ganes is the Investment Manager of the Fund and has been since the Fund's inception in 2002. The portfolio manager since inception is Wayne Jones. Wayne is a Certified Practising Accountant (CPA) and has a Graduate Diploma in Applied Finance. He has been involved in various business acquisitions during his career.

With more than 17 years of experience in investing, Ganes has established a track record of identifying businesses selling at prices which offer attractive prospects for capital appreciation. This requires a thoughtful, long-term

approach and investing meaningfully in the best ideas rather than taking an index approach to investing.

Ganes seeks companies that are able to grow and can compound their capital effectively through intelligent capital allocation decisions.

Ganes seeks to identify growing, profitable, well managed companies with strong balance sheets that can be purchased at a price that may deliver at an above market return over the next 5 plus years. Ganes believes such companies will typically earn above average returns on capital facilitated by management with strong capital allocation skills and a motivation to deliver high shareholder returns. The investment process predominantly focuses on identifying companies that possess these features and is index unaware.

Ganes may also invest in companies that do not possess these features but hold the prospect of an attractive return.

For more information on the investment process, see "How we invest your money".

2 How the Fund works

Mechanics

When you invest in the Fund your money (together with all other investors' monies) is gathered in the one place and invested in assets. We have appointed Ganes to manage the Fund. Ganes uses its resources, experience and expertise to make the investment decisions.

We have also appointed National Australia Bank Limited (NAB) as the independent custodian to hold the assets of the Fund.

Units

The Fund is a "unit trust". This means your interests in the Fund are represented by "units". Certain rights (such as a right to any income and a right to vote) attach to your units. You may also have obligations in respect of your units.

You can increase your units by reinvesting distributions (this will be done automatically unless you tell us otherwise) or by making an additional investment (use the additional

investment form to do this), or you can decrease your units by making a withdrawal (simply contact us in writing and tell us how much you need to withdraw). We call this a redemption request. We accept scanned or faxed redemption requests on certain conditions.

◆ Each unit has a value which we calculate. When you invest, we issue you a number of units depending on the amount you invest. Similarly, when you withdraw from the Fund, we calculate your withdrawal proceeds by reference to the number and value of units you hold at the time of withdrawal. Generally, the price of units will vary as the market value of assets in the Fund rises or falls.

◆ Investing and withdrawing

To invest in the Fund, use the application form accompanying this PDS. The following minimum transactions, balance requirements and processing rules generally apply (although we may vary or waive them at our discretion and without notice):

MINIMUM INITIAL INVESTMENT	\$20,000
MINIMUM ADDITIONAL INVESTMENT	\$2,000
MINIMUM WITHDRAWAL	\$5,000
MINIMUM BALANCE	\$5,000
UNIT PRICING FREQUENCY	Weekly, using Friday end of day price
APPLICATIONS AND WITHDRAWALS PROCESSING	Both your application form and investment must be received by 4pm Friday , Sydney time (unless Friday is a public holiday), to be processed using the unit price effective for that week (otherwise your application will be processed the next week). Your signed redemption request must be received by 4pm Wednesday cut-off, Sydney time in order to be processed using the unit price effective for that week (otherwise your redemption will be processed the next week).

◆ Delays

Normally once we decide you can withdraw your money (usually this happens within 5 business days of receipt of your withdrawal request), we process the request within 5 business days (although the constitution for the Fund allows us 180 days), and pay funds to your account.

In certain circumstances, such as a freeze on withdrawals or where the Fund is illiquid (as defined in the Corporations Act), you may have to wait a longer period of time before you can withdraw your money.

If the Fund is not sufficiently liquid then you will only be permitted to withdraw if we make a withdrawal offer to all investors in accordance with the Fund constitution and Corporations Act.

◆ Compulsory redemptions

In some circumstances we may also compulsorily redeem your units, for example, where we suspect that a law prohibits you from being an investor in the Fund.

Distributions

Any income distributions are paid semi-annually (as at 30 June and 31 December each year) and can be reinvested in full or paid out entirely to the financial institution account nominated on your application form. You can indicate your choice on the application form. If you do not make a choice,

then distributions will be reinvested. Any distributions reinvested are reinvested at the ex-distribution mid-price. Distribution payments are typically made within 20 business days after the end of the distribution period. Distributions will not be paid by cheque.

We generally calculate income distributions based on the Fund's net income at the end of the distribution period divided by the number of units on issue.

We distribute all taxable income to investors each year, including any taxable capital gains. Distributions may also carry imputation or other tax credits.

You should read the following important information before making a decision to invest in the Fund: ◆ **"Investing and withdrawing"**. Go to Part A of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

3 Benefits of Investing in the Fund

Significant features

The Fund typically invests in a concentrated portfolio of 15 to 45 investments which are actively managed and listed on the ASX. The Fund's objective is to outperform the S&P/ASX 300 Accumulation Index over the long term, usually rolling 5-year periods, although this is not a forecast and returns are not guaranteed.

Due to the concentrated nature of the portfolio returns may vary significantly from the Fund's benchmark.

◆ Significant benefits

Some of the significant benefits of investing in the Fund include:

- Access to the expertise of an investment manager with an established track record.
- Access to a portfolio of stocks that provide the potential for capital gains and income to meet your investment needs.
- A focus on companies which an ordinary investor may not be able to identify.
- Having clear legal rights through a robust corporate governance structure.
- Regular investment statements and an annual tax statement to keep you up to date on your investment.

You should read the following important information before making a decision to invest in the Fund: ◆ **"Benefits and features"**. Go to Part B of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

4 Risks of Managed Investment Schemes

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

◆ Significant risks

The significant risks of the Fund include:

- **Asset allocation:** There is no guarantee that the Fund's asset allocation strategy and investment selections will provide positive investment performance at all stages of the investment cycle.
- **Concentration risk:** The Fund typically invests in 15 to 45 investments. The largest 10 holdings may represent 40% to 85% of the total Fund value but sometimes more or less. The value of the Fund's investments may be more affected by any single adverse business, economic, political or regulatory event than the investments of a more diversified portfolio.
- **Counterparty risk:** Losses can be incurred if the counterparty (such as a broker) defaults on their obligations or experiences financial difficulty.
- **Currency risk:** Whilst the Fund invests in securities listed on the ASX, these investments may have significant functional exposure to other currencies which exposes the Fund to currency risk.
- **Cyber risk:** There is a risk of fraud, data loss, business disruption or damage to the information of the Fund or to investors' personal information as a result of a threat or failure to protect the information or personal data stored within our IT systems and networks and those of our service providers.
- **Fund risk:** The Fund could terminate, the fees and expenses could change (although we would always give you or your master trust or wrap operator at least 30 days' notice where practicable if fees charged under this PDS were to increase), we could be replaced as responsible entity and management and staff could change. Investing in the Fund may give different results than investing individually in the same assets because of accrued income or capital gains and the consequences of others investing and withdrawing.
- **Income risk:** The level of income generated on the Fund's investments can fall as well as rise and the tax status of such income can change. Income returns are not guaranteed and you may lose some or all of the money you invest in the Fund.
- **Interest rate risk:** The capital value or income of a security may be adversely affected by interest rate movements.

- **Investment Manager risk:** There is a risk that the Investment Manager will not perform to expectation or factors such as changes to the investment team may affect the Fund's performance. The Investment Manager has a relatively small number of key investment staff. The Fund's performance depends on their expertise.
- **Liquidity risk:** Access to your money may be delayed (see "How the Fund works" and "Delays"). Overall market liquidity can make it difficult to trade and to realise assets in a timely fashion to meet withdrawal requests.
- **Market risk:** Economic, technological, climate, political or legal conditions, interest rates and even market sentiment, can (and do) change, and changes in the value of investment markets can affect the value of the investments in the Fund.
- **Regulatory risk:** The value or tax treatment of either the Fund itself or investments, or the effectiveness of its trading or investment strategy, may be adversely affected by changes in government (including taxation) policies, regulations and laws affecting registered managed investment schemes, or changes in generally accepted accounting policies or valuation methods.
- **Security specific risk and selection:** Returns are affected by the underlying strength of the cash flows, balance sheets and management (i.e. business) of the entities in which the Fund invests. Specific investments held in the Fund can fall in value for many reasons, such as changes in an entity's internal operations or management, or in the business environment in which the entity operates. If specific investments held in the Fund fall in value, the value of units in the Fund will also fall.
- **Small companies risk:** Small companies generally have less diversified income streams, less stable funding sources and weaker bargaining positions with their counterparties when compared to larger companies. The securities of small companies may also be less liquid than those of larger companies.

◆ **Risks applicable to managed funds generally**

Other significant risks relevant to many managed funds include the value of investments will vary, the level of returns will vary, future returns may differ from past returns, and returns are not guaranteed. You may lose your money.

The level of risk for each person will vary depending on a range of factors, including age, investment time frames, where other parts of your wealth are invested and your risk tolerance. These risks can be managed but cannot be completely eliminated. You can adopt tools to help you manage your own risk.

You should read the following important information before making a decision to invest in the Fund: ◆ **"Risks in general"**. Go to Part C of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

5 How we Invest your Money

You should consider the likely investment return, risk and your investment timeframe when choosing a fund to invest in.

FUND DESCRIPTION	The Fund is a registered managed investment scheme structured as an unlisted, open-ended unit trust. The Fund typically invests in a highly concentrated portfolio of listed Australian securities.
INVESTMENT RETURN OBJECTIVE	To generate superior returns to the S&P/ASX 300 Accumulation Index over the long term (five years and greater) by investing in a portfolio of listed Australian securities. This investment return objective is not intended to be a forecast. It is merely an indication of what the Fund aims to achieve over the long term. The Fund may not be successful in meeting this objective. Returns are not guaranteed. The investment objective is expressed net of management fees, expenses.
BENCHMARK	S&P/ASX 300 Accumulation Index
FUND'S INVESTMENTS AND ASSET ALLOCATION	The Fund will invest primarily in securities listed on the Australian Securities Exchange (ASX). These securities may provide an exposure to listed securities or businesses outside Australia. For example, the Fund may invest in an Australian listed investment company with investments on international exchanges or in companies that have businesses located in other countries. Portfolio holdings may comprise companies drawn from a wide range of market capitalisations (cap) including large-cap, mid-cap, small-cap and micro-cap though there may be periods where the portfolio is highly concentrated in one of these capitalisation groups. Similarly, the portfolio may be concentrated in one or a few industries. As a general guide, the Fund will hold around 15 to 45 investments and sometimes more or less. The largest 10 holdings tend to represent 40% to 85% of the total Fund value. Generally, no more than 15% may be allocated to any single holding. It is important to note that the actual portfolio structure may differ from these general guidelines and extend outside the indicated ranges. The allocation to cash at any point is a by-product of the investing strategy rather than targeted cash levels. The level of cash held would generally be in the range of 2% to 20% with the balance invested in ASX listed securities. However, higher levels of cash will be held where the Investment Manager sees limited value in the market and is unable to identify attractive investment opportunities.
RECOMMENDED MINIMUM INVESTMENT PERIOD	At least 5 years
BORROWING	The Fund will not borrow. Derivatives will not be used to gear the Fund.

RISK	High
SUITABILITY	The Fund is generally suited for persons seeking long term capital growth and those who can tolerate a high level of risk. You should speak with your financial adviser before investing in the Fund.
LABOUR AND ENVIRONMENTAL, SOCIAL OR ETHICAL CONSIDERATIONS	Ganes does not take into account labour standards or environmental, social or ethical considerations in the selection, retention or realisation of investments.

Any of the above details could change at any time and without notice. Where we consider the changes are significant, we will notify you of the changes (and give you 30 days' prior notice where practicable).

You should read the following important information before making a decision to invest in the Fund: ♦ [“The investment process”](#). Go to Part D of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

6 Fees and Costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (**ASIC**) website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Information in the following table can be used to compare costs between different managed funds. Generally, fees and costs may be paid directly from your investment returns or from the Fund's assets as a whole.

Type of fee or cost	Amount
FEES WHEN YOUR MONEY MOVES IN OR OUT OF THE FUND[^]	
Establishment Fee	Nil
Contribution Fee	Nil
Withdrawal Fee	Nil
Exit Fee	Nil
MANAGEMENT COSTS^{^^}THE FEES AND COSTS FOR MANAGING YOUR INVESTMENT, INCLUDING:	
Responsible Entity Fee (Payable to Fundhost)	0.26% pa
Investment Management Fee (Payable to Ganes)	1.00% pa
Performance Fee (Payable to Ganes)	14.60% of the amount by which the Fund outperforms its benchmark (being the S&P/ASX 300 Accumulation Index), after other fees and expenses have been deducted and achieves positive performance.
Ordinary Expenses* (Payable from the Fund)	Capped at 0.07% pa
Abnormal Expenses* (If incurred, payable from the Fund)	Nil
Indirect Costs* (If incurred, payable from the Fund's assets)	0.07% pa

[^]Buy-sell spreads apply when you invest in the Fund and when you redeem from the Fund. See [“Additional explanation of fees and costs”](#) for more detail.

^{^^}All fees are expressed as a percentage of net asset value of the Fund excluding accrued fees.

Any item marked with an asterisk () is an estimate. Please refer to our website for any updates on these estimates which are not considered to be materially adverse from a retail investor's point of view.

For information on service fees, please see [“Additional explanation of fees and costs”](#).

Example of annual fees and costs

This table gives an example of how the fees and costs for the Fund can affect your investment over a one-year period. You should use this table to compare the Fund with other managed investment products.

Example - Balance of \$50,000 including a contribution of \$5,000 during the year		
CONTRIBUTION FEES	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS MANAGEMENT COSTS OF 1.40% PA COMPRISING:		And , for every \$50,000 you have in the Fund you will be charged \$700 each year, comprising:
Responsible Entity Fee	0.26% pa	\$129
Investment Management Fee	1.00% pa	\$500
Performance Fees*	Nil	\$0
Ordinary Expenses*	0.07%	\$35
Abnormal Expenses*	Nil	\$0
Indirect Costs*	0.07%	\$36
EQUALS Cost of the Fund	1.40% pa	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of \$700 each year.

When calculating management costs in this table, the law says we must assume that the value of your investment remains at \$50,000 and the Fund's unit price does not fluctuate. Management costs actually incurred will depend on the market value of your investment and the timing of your contributions (including any reinvestment of distributions). The example assumes no abnormal expenses are incurred, no service fees are charged and that fees are not individually negotiated. The example also assumes no performance fee is payable as no fee was in fact payable during the financial year immediately preceding the date of this PDS. The fact that no performance fee was paid however is not a representation of likely future performance. The actual performance fee and therefore the total management costs in the future will depend on the performance of the Fund and the benchmark and its ability to catch up previous periods of underperformance.

Totals may appear incorrect due to rounding.

Any item marked with an asterisk () is an estimate. Please refer to our website for any updates on these estimates which are not considered to be materially adverse from a retail investor's point of view.

If you would like to calculate the effect of fees and costs on your investment you can visit the ASIC website (www.moneysmart.gov.au) and use their managed investment fee calculator.

◆ Additional explanation of fees and costs

ABOUT MANAGEMENT COSTS

The Management Costs include Fundhost's fees, Ganes' fees, performance fees, ordinary and abnormal expenses and any indirect costs. Fees payable to Fundhost and Ganes are calculated and accrued daily based on the net asset value of the Fund excluding accrued fees and are paid monthly in arrears. Management Costs paid out of Fund assets reduce the net asset value of the Fund and are reflected in the unit price. Management Costs exclude transaction costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through buy-sell spreads).

Indirect costs form part of Management Costs and include fees and expenses arising from any investment which qualifies as an interposed vehicle (e.g. any underlying fund that the Fund may invest in). The Fund's indirect costs are based on the financial year ending 30 June 2019 and are estimated to be 0.07% per annum. Actual indirect costs for future years may differ.

The ordinary expenses for the Fund are capped at 0.07% per annum of the net assets of the Fund. These are the ordinary and every day expenses incurred in operating the Fund and are deducted from the assets of the Fund as and when they are incurred. Ordinary expenses over 0.07% are paid by Ganes. The constitution of the Fund provides that expenses incurred by us in relation to the proper performance of our duties in respect of the Fund are payable or reimbursable out of the assets of the Fund and are unlimited. We reserve the right to recover abnormal expenses from the Fund. Abnormal expenses are expected to occur infrequently and may include (without limitation) costs of litigation to protect investors' rights, costs to defend claims in relation to the Fund, investor meetings and termination and wind up costs.

PERFORMANCE FEE

A Performance Fee is payable to Ganes in respect of each annual period ending 30 June when the investment performance of the Fund has exceeded the benchmark, being the performance of the S&P/ASX 300 Accumulation Index (**Index**), and achieved positive performance.

The Performance Fee is 14.60% of the total return of the Fund after management fees and expenses have been deducted, that is in excess of the Index return, and is calculated daily and paid annually in arrears. When the total return of the Fund is less than the Index return, no performance fee is payable. No performance fee is payable until any previous periods of underperformance have been made up.

When the absolute return of the Fund is negative but the Fund has performed better than the Index, the relative outperformance of the Fund is carried forward to ensuing period(s).

TRANSACTIONAL AND OPERATIONAL COSTS

Transactional and operational costs include brokerage, settlement costs, bid-offer spreads on investments and currency transactions and borrowing, clearing and stamp duty costs. When you invest in the Fund, Ganes may buy (and sell) investments, and incur these costs. When you withdraw, Ganes may sell investments so we can pay your cash to you, and incur these costs. These costs are also incurred in connection with day to day trading within the Fund.

Some of these costs are recovered through the buy-sell spread. A buy-sell spread is an adjustment to the unit price reflecting our estimate of the transaction costs that may be incurred as a result of the purchase/sale of assets arising from the acquiring/withdrawing of units. This adjustment ensures that existing investors do not pay costs associated with other investors acquiring/ withdrawing units from

the Fund. The buy-sell spread is reflected in the buy/sell unit price. Currently, our buy-sell spread is estimated to be 0.50% of the unit price (that is +0.25% on the entry price and -0.25% on the exit price). So if the net asset value of each unit is \$1.00, on entry we adjust the unit price up approximately 0.25% (up 0.25 cents) and on exit we adjust the unit price down approximately 0.25% (down 0.25 cents). The buy-sell spread is not paid to Fundhost or Ganes. Because the buy-sell spread is reflected in the buy/sell unit prices, you won't see transaction costs on any account statement we send you.

Transactional and Operational Costs for FY 2019	Recovery through Buy-Sell Spread	Net Transactional and Operational Costs
0.11%	0.01%	0.10%

Our estimate of the total transactional and operational costs for the Fund during the year ended 30 June 2019 was calculated using the Fund's actual transactions during the last financial year. We expect this amount to vary from year to year as it will be impacted by the Fund's volume of trading, brokerage arrangements and other factors. The amount recovered through the buy-sell spread was calculated using actual applications and withdrawals during the last financial year. We expect this amount to vary from year to year as it will be impacted by the volume of applications and withdrawals and any changes in the buy-sell spread for the Fund. The net transactional and operational costs is the difference between these two amounts. All of these amounts

are expressed as a percentage of the Fund's average net asset value for the year. Based on an average account balance of \$50,000 over a one year period, the net transactional and operational costs represent approximately \$50.

SERVICE FEES

If you need Fundhost to do something special for you, we may charge you a fee. These special fees vary depending on what you ask us to do.

CAN THE FEES CHANGE OR BE UPDATED?

Yes, all fees can change. Reasons might include changing economic conditions and changes in regulation. However, we will give you 30 days' written notice of any increase to fees where practicable. The constitution for the Fund sets the maximum amount we can charge for all fees. If we wished to raise fees above the amounts allowed for in the Fund's constitution, we would need the approval of investors.

Please refer to our website for any updates on our estimates of any fees and costs (including indirect costs and transactional and operational costs) which are not considered to be materially adverse from a retail investor's point of view. Remember, past performance is not an indicator of future performance and any fee or cost for a given year may not be repeated in a future year.

ADVISER REMUNERATION

No commissions will be paid by us to financial advisers. Additional fees may be paid by you to your financial adviser if one is consulted. You should refer to the Statement of Advice they give you in which details of the fees are set out.

You should read the following important information before making a decision to invest in the Fund: ♦ ["Additional explanation of fees and costs"](#). Go to Part E of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

7 How Managed Investment Schemes are taxed

♦ Investing in a registered managed investment scheme (like the Fund) is likely to have tax consequences and you are strongly advised to seek professional tax advice.

Registered managed investment schemes (like the Fund) do not pay tax on behalf of unit holders. Unit holders are assessed for tax on any income and capital gains generated by the Fund.

You should read the following important information before making a decision to invest in the Fund: ♦ ["Paying tax"](#). Go to Part F of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

8 How to Apply

How to invest

You generally need to invest at least \$20,000 initially. Use the application form accompanying this PDS. The application form contains detailed instructions and will ask you to provide the identification documents required under the *Anti-Money Laundering and Counter Terrorism Financing Act 2006* (Cth) (**AML CTF Act**). We do not earn interest, nor do we pay you interest on application monies held, prior to the time we issue units to you.

Additional investments can be made at any time in writing, generally the minimum amount for additional investments is \$2,000.

Both your application form and investment must be received by 4pm Friday, Sydney time (unless Friday is a public holiday), to be processed using the unit price effective for that week (otherwise your application will be processed

the next week). We do not earn interest on application monies held prior to the time we issue units to you.

Cooling off

If you decide that you don't want the units we have issued you in the Fund, we must repay your money to you.

We are allowed to (and generally do) make adjustments for market movements up or down, as well as any tax and reasonable transaction and administration costs. For example, if you invest \$25,000 and the value of the units falls by 1% between the time you invest and the time we receive notification that you wish to withdraw your investment, we may charge you on account of the reduced unit value and you would incur a buy spread of +0.25% and a sell spread of -0.25%. This means that \$24,626 would be transferred from the Fund back to you.

If you change your mind, you have 14 days to tell us, starting on the earlier of when we send you confirmation that you are invested or the end of the 5th day after the day on which we issue the units to you.

This right terminates immediately if you exercise a right or power under the terms of the product, such as transferring your units or voting on any units held by you. For any subsequent investments made under a distribution reinvestment plan, cooling off rights do not apply.

The Fund has less than 100 investors. When the Fund has 100 investors or more, the Fund will be considered a "disclosing entity" for the purposes of the Corporations Act. This means the Fund will become subject to regular reporting and disclosure obligations. Copies of any documents lodged with ASIC in relation to the Fund may be obtained from, or can be inspected at, an ASIC office. Investors will have a right to obtain a copy of the most recent annual report free of charge.

Any continuous disclosure obligations we may have will be met by following ASIC's good practice guidance via website notices rather than lodging copies of these notices with ASIC. Accordingly should Fundhost, as responsible entity of the Fund, become aware of material information that would otherwise be required to be lodged with ASIC as part of any continuous disclosure obligations, we will ensure that such material information will be made available as soon as practicable on our website at www.fundhost.com.au. If you would like hard copies of this information, call Fundhost on +61 2 8223 5400 and we will send it to you free of charge.
