

## Fund Fact Sheet

### About the Fund

The fund was established in 2002 with a focus on investing in quality companies that can be purchased at reasonable prices and offer opportunities for capital growth through earnings growth.

The fund is index unaware and therefore short-term performance may vary from the broader market, although the fund seeks to outperform the market over the long-term. Because of the investment philosophy the fund is far more concentrated than most managed funds.

### Investment Philosophy

The manager believes a concentrated portfolio approach of investing in the manager's best ideas produces the best investment results. Therefore, the investment approach relies upon careful and thoughtful stock selection with a long-term timeframe and a high allocation to the best opportunities.

The fund invests in companies that can grow earnings and reinvest capital to compound earnings. As a result, management with good capital allocation skills are important and are highly sought. Typically, these skills are found in founder-led businesses and these companies form a high percentage of the companies found in the portfolio.

### About Ganes Capital Management
