2. How The Fund Works

Mechanics

When you invest in The Fund your money (together with all other investors' monies) is gathered in the one place and invested in assets. Polen Capital uses its resources, experience and expertise to make the investment decisions.

We have also appointed National Australia Bank Limited (NAB) as the independent custodian to hold the assets of The Fund.

Units

The Fund is a "unit trust". This means your interests in The Fund are represented by "units". Certain rights (such as a right to any income and a right to vote) attach to your units. You may also have obligations in respect of your units.

→ Each unit has a value which we calculate. When you invest, we issue you a number of units depending on the amount you invest. Similarly, when you withdraw from The Fund, we calculate your withdrawal proceeds by reference to the number and value of units you hold at the time of withdrawal. Generally, the price of units will vary as the market value of assets in The Fund rises or falls.

Pursuant to this PDS, you may invest in Class A Units in The Fund. Class B Units are issued pursuant to a different document. All classes of units provide their holders with a beneficial interest in the assets of The Fund as a whole and not any interest in any single asset.

→ Investing and withdrawing

To invest in The Fund, use the paper or online application form accompanying this PDS. The following minimum transactions, balance requirements and processing rules generally apply (although we may vary or waive them at our discretion and without notice):

Minimum Initial Investment	\$25,000
Minimum additional Investment	\$5,000 or \$500 per month as a monthly direct debit savings plan
Minimum Withdrawal	\$5,000
Minimum Balance	\$5,000

Unit Pricing Frequency	Each Sydney business day.
Applications and Withdrawals Processing	If we receive your correctly completed application and monies or a correctly completed redemption request, then we generally process these each business day using the unit price effective for that day. If your request is received before 4pm Sydney time it will be processed using the unit price effective for that day. If your request is received after this time, or on a non-business day, it is treated as having been received before 4pm Sydney time the next business day. If you are making monthly direct debit contributions, refer to section 8 "How to Apply" for more information.

You can increase your units by reinvesting distributions (this will be done automatically unless you tell us otherwise) or by making an additional investment (use the additional investment form to do this), or you can decrease your units by making a withdrawal (simply contact us in writing and tell us how much you need to withdraw). We call this a redemption request. We accept scanned or faxed redemption requests on certain conditions.

→ Delays

Normally once we approve your redemption (usually this happens within 5 business days of receipt of your redemption request), we process the request within 5 business days (although the constitution for The Fund allows us 21 days), and pay funds to your account.

In certain circumstances, such as a freeze on withdrawals or where The Fund is illiquid (as defined in the Corporations Act), you may have to wait a longer period of time before you can redeem your investment.

If The Fund is not sufficiently liquid then you will only be permitted to withdraw if we make a withdrawal offer to all investors in accordance with The Fund constitution and Corporations Act.

→ Compulsory Redemptions

In some circumstances we may also compulsorily redeem your units, for example, where we suspect that a law prohibits you from being an investor in The Fund.

→ Distributions

Any income distributions are generally paid annually (as at 30 June each year) and can be reinvested in full or paid out entirely to the financial institution account nominated on your application form. You can indicate your choice on the application form. If you do not make a choice, then distributions will be reinvested.

Any distributions reinvested are reinvested at the ex-distribution mid-price.

Distribution payments are typically made within 20 business days after the end of the distribution period. Distributions will not be paid by cheque.

We generally calculate income distributions based on The Fund's net income at the end of the distribution period divided by the number of units on issue.

You should read the following important information before making a decision to invest in The Fund: → "Investing and withdrawing" and "Delays". You should read the following important information before making a decision to invest in The Fund: → "Benefits of Investing in The Fund". Go to Part B of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

4. Risks of Managed Investment Schemes

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

→ Significant Risks

The significant risks of The Fund include (without limitation):

- **Concentration Risk:** The Fund typically invests in a relatively concentrated portfolio of 25 to 35 globally listed companies. The value of The Fund's investments may be more affected by any single adverse economic, political or regulatory event than a more diversified portfolio.
- **Counterparty Risk:** Losses can be incurred if a counterparty (such as broker) defaults on their contractual obligations or experiences financial difficulty.
- **Emerging Market Risk:** The Fund invests in companies domiciled in foreign jurisdictions, including emerging market countries. Investments in emerging markets securities involve a range of risks in addition to those involved in investing in more developed markets including increased governmental, economic, legal and securities market risks. Emerging markets may experience unexpected changes in government or regulatory policy, including exchange controls which could reduce trading liquidity and increase price volatility of securities, create delays in accessing funds, or result in a loss of securities holder rights and protection of property rights. Trading, settlement and custody practices may differ from developed markets and this may result in lower liquidity and additional counterparty credit risk. Foreign exchange risk is often higher for emerging markets.
- **Foreign Exchange Risk:** The Fund will invest in companies listed on global stock exchanges which will therefore give rise to foreign currency exposure. This means the value of foreign investments will vary as exchange rates change. Fluctuations in foreign currency can have both a positive and negative impact on the investments of The Fund. Polen Capital will not hedge The Fund against movements in the Australian dollar and other country exchange rates. The default position is to remain unhedged. Investors should understand that The Fund is denominated in Australian dollars and so the value of your investment may go up and down according to changes in the exchange rate between Australian dollars and other currencies. These changes may be significant.
- **Fund risk:** The Fund could terminate (for example, at a date we decide), fees and expenses could change (although we would give you at least 30 days' notice where practicable if fees were to increase), we could be replaced as responsible entity and our management and staff could change. Investing in The Fund may give different results than investing individually because of accrued income or capital gains and the consequences of others investing and withdrawing.

- **Individual Investment Risk:** Investments to which The Fund is exposed, like shares on a stock exchange, can (and do) fall in value for many reasons, such as changes in a company's internal operations or management, or in its business environment. Polen Capital aims to reduce these risks with the use of its investment guardrails and also through fundamental analysis.
- **Interest Rate Risk:** The capital value or income of a security held by The Fund may be adversely affected by interest rate movements.
- **Liquidity Risk:** Access to your money may be delayed (see Section 2 "How The Fund works" and "Delays"). Overall market liquidity can make it difficult to trade profitably and to realise assets in a timely fashion to meet withdrawal requests. Units in The Fund are not quoted on any stock exchange so you cannot sell them through a stockbroker.
- **Market Risk:** Economic, technological, climate, health, political or legal conditions, interest rates and even market sentiment, can (and do) change, and these changes can affect the value of the investments in The Fund.
- **Regulatory Risk:** The value or tax treatment of The Fund or its investments, or the effectiveness of The

Fund's investment strategy, may be adversely affected by changes in government (including taxation) policies, regulations and laws affecting registered managed investment schemes, or changes in generally accepted accounting policies or valuation methods.

- **Sovereign Risk:** This is the extra dimension of risk involved in international, as distinct from domestic, investments and transactions. Sovereign risk is additional to the usual commercial risks such as credit and foreign exchange risks. Sovereign risk implies the possibility that conditions will develop in a country which inhibit repayment of funds due from that country, such as exchange controls, strikes or declarations of war. Sovereign risks are generally higher in emerging countries.

➔ **Risks applicable to managed funds generally**

Other significant risks relevant to many managed funds include the value of investments will vary, the level of returns will vary, future returns may differ from past returns, and returns are not guaranteed. You may lose your money.

The level of risk for each person will vary depending on a range of factors, including age, investment time frames, where other parts of your wealth are invested and your risk tolerance. These risks can be managed but cannot be completely eliminated. You can adopt tools to help you manage your own risk.

You should read the following important information before making a decision to invest in The Fund: ➔ "Significant Risks" and "Risks in general". Go to Part C of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

Note: the investment return objective is not intended to be a forecast. You should read the following important information before making a decision to invest in The Fund: ➔ "How we invest your money". Go to Part D of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

6. Fees and Costs

Did You Know

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better

member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask The Fund or your financial adviser.

To Find Out More

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (**ASIC**) Moneysmart website (www.moneysmart.gov.au) has a managed investment fee calculator to help you check out different fee options.

Information in the following table can be used to compare costs between different managed investment schemes. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of The Fund as a whole.

* Any item marked with an asterisk (*) is an estimate. Please refer to our website for any updates on these estimates which are not considered to be materially adverse from a retail investor's point of view.

Example of Annual Fees and Costs

This table gives an example of how the ongoing fees and costs for The Fund can affect your investment over a 1-year period. You should use this table to compare The Fund with other managed investment schemes.

Example	Amount	Balance of \$50,000 with a contribution of \$5,000 during the year
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management Fees and Costs*	Up to 1.20% p.a.	And , for every \$50,000 you have in The Fund you will be charged or have deducted from your investment up to \$600 each year.
PLUS Performance Fee*	0.92% p.a.	And , you will be charged or have deducted from your investment \$460 in performance fees each year.
PLUS Transaction Costs*	Nil	And , you will be charged or have deducted from your investment \$0 in net transaction costs.
EQUALS Cost of The Fund	2.12%	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$1060 each year.

When calculating ongoing annual fees and costs in this table, the law says we must assume that the value of your investment remains at \$50,000 and The Fund's unit price does not fluctuate. Ongoing annual fees and costs actually incurred will depend on the market value of your investment and the timing of your contributions (including any reinvestment of distributions). The example assumes no abnormal expenses are incurred and no service fees are charged. The fact that a performance fee was paid or not paid in the example however is not a representation of likely future performance. The actual performance fee and therefore the total cost of The Fund in the future will depend on the performance of Polen Capital. Totals may appear incorrect due to rounding.

Any item marked with an asterisk () is an estimate. Please refer to our website for any updates on these estimates which are not considered to be materially adverse from a retail investor's point of view.

If you would like to calculate the effect of fees and costs on your investment you can visit the ASIC website (www.moneysmart.gov.au) and use their managed investment fee calculator.

➔ Additional Explanation of Fees and Costs

About Management Fees and Costs

The management fees and costs include Fundhost, Montgomery and Polen Capital's fees, custody fees, ordinary and abnormal expenses and indirect costs. Fees payable to Fundhost, Montgomery and Polen Capital are calculated and accrued daily based on the net asset value for The Fund excluding accrued fees and are paid monthly in arrears. Management fees and costs paid out of Fund assets reduce the net asset value of The Fund and are reflected in the unit price. Management fees and costs exclude transaction costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through buy-sell spreads).

Indirect costs form part of management fees and costs and include fees and expenses arising from any investment which qualifies as an interposed vehicle (e.g. any underlying fund that The Fund may invest in) and certain OTC derivative costs. The Fund's indirect costs are estimated to be nil. Actual indirect costs for future years may differ.

The ordinary expenses for The Fund are the ordinary and every day expenses incurred in operating The Fund and are deducted from the assets of The Fund as and when they are incurred. The constitution of The Fund provide that expenses incurred by us in relation to the proper performance of our duties in respect of The Fund are payable or reimbursable out of the assets of The Fund and are unlimited. We reserve the right to recover abnormal expenses from The Fund. Abnormal expenses are expected to occur infrequently and may include (without limitation) costs of litigation to protect investors' rights, costs to defend claims in relation to The Fund, investor meetings and termination and wind up costs.

Management fees and costs are paid from The Fund but are capped at 1.20% p.a. of the net asset value of The Fund. Abnormal expenses are not included in the fee cap. If actual management fees and costs are lower than this, then the lower amount is charged to The Fund. If they are more, they are paid by Montgomery and Polen Capital.

Performance Fee

A Performance Fee is payable to Montgomery and Polen Capital in respect of each 6 monthly period ending 30 June or 31 December when the investment performance of The Fund has exceeded the Benchmark and achieved positive performance.

The Performance Fee is 15.05% of the total return of The Fund after management fees and expenses have been deducted, that is in excess of the Benchmark return, and is calculated daily and paid semi-annually in arrears. When the total return of The Fund is less than the Benchmark return, no performance fee is payable. No performance fee is payable until any previous periods of underperformance have been made up.

When the absolute return of The Fund is negative but The Fund has performed better than the Benchmark, the relative outperformance of The Fund in percentage terms is carried forward to ensuing period(s).

Transaction Costs

Transaction costs include brokerage, settlement costs, currency transactions, clearing and stamp duty costs. When you invest in The Fund, Polen Capital may buy investments, and incur these costs. When you withdraw, Polen Capital may sell investments so we can pay your cash to you, and incur these costs. These costs are also incurred in connection with day to day trading within The Fund.

Some of these costs are recovered through the buy-sell spread. A buy-sell spread is an adjustment to the unit price reflecting our estimate of the transaction costs that may be incurred as a result of the purchase/sale of assets arising from the buying/selling of units. This adjustment ensures that existing investors do not pay costs associated with other investors acquiring/ withdrawing units from The Fund. The buy-sell spread is reflected in the buy/sell unit price. Currently, our buy-sell spread is estimated to be 0.50% of the unit price (that is +0.25% on the entry price and -0.25% on the exit price). So if the net asset value of each unit is \$1.00, on entry we adjust the unit price up approximately 0.25% (up 0.25 cents) and on exit we adjust the unit price down approximately 0.25% (down 0.25 cents).

The buy-sell spread is not paid to Fundhost, Montgomery or Polen Capital. Because the buy-sell spread is reflected in the buy/sell prices, you won't see transaction costs on any account statement we send you.

We expect the transaction costs to vary from year to year as they will be impacted by The Fund's volume of trading, brokerage arrangements and other factors. We expect the amounts recovered through the buy-sell spread to vary from year to year as it will be impacted by the volume of applications and withdrawals and any changes in the buy-sell spread for The Fund. The net transaction costs is the difference between these two amounts. All of these amounts are expressed as a percentage of The Fund's average net asset value for the year.

Gross transaction costs	Recovery through buy-sell spread	Net transaction costs
0.15%	0.25%	Nil

As The Fund is new, we have estimated the amount of gross transaction costs and recoveries.

Service Fees

If you need Fundhost to do something special for you, we may charge you a fee. These special fees vary depending on what you ask us to do.

You should read the following important information before making a decision to invest in The Fund: → "Additional explanation of fees and costs". Go to Part E of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

7. How Managed Investment Schemes are Taxed

→ Investing in a registered managed investment scheme (like The Fund) is likely to have tax consequences and you are strongly advised to see professional tax advice.

Registered managed investment schemes (like The Fund) do not pay tax on behalf of unit holders. Unit holders are assessed for tax on any income and capital gains generated by The Fund.

You should read the following important information before making a decision to invest in The Fund: → "Paying Tax". Go to Part F of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

8. How to Apply

How to Invest

You generally need to invest at least \$25,000 initially. Use the paper or online application form accompanying this PDS. The application form contains detailed instructions and will ask you to provide the identification documents required under the Anti-Money Laundering and Counter Terrorism Financing Act 2006 (**AML CTF Act**). We do not earn interest, nor do we pay you interest on application monies held, prior to the time we issue units to you.

Additional investments can be made at any time in writing, generally the minimum amount for additional investments is \$5,000.

You may also arrange to add to your initial investment by applying for our direct debit monthly savings plan, requiring a minimum investment of \$500 per month. This is processed on the 15th of each month or the next business day. To apply for this, fill out the direct debit instruction in the application form and see the Terms and Conditions.

→ Cooling Off

If you decide that you don't want the units we have issued you in The Fund, we must repay your money to you.

If you change your mind, you have 14 days to tell us, starting on the earlier of when we send you confirmation that you are invested or the end of the 5th day after the day on which we issue the units to you.

This right terminates immediately if you exercise a right or power under the terms of the product, such as transferring your units or voting on any units held by you. For any subsequent investments made under a distribution reinvestment plan, cooling off rights do not apply.

Enquiries and Complaints

Contact us during business hours (9am to 5pm on Sydney business days). Our details are at the beginning of this PDS. It helps us if you have your investor number handy when you contact us.

If you have a complaint, it is better it be made in writing although you can always call us of course. Complaints will always be acknowledged and responded to within 30 days. If you have invested through an IDPS you can access Fundhost's complaints procedures directly.

If you are unhappy with our response to your complaint you can contact the independent Australian Financial Complaints Authority (**AFCA**).

AFCA operations will be financed by contributions made by its members, including Fundhost. AFCA is free to consumers. For information on the AFCA Rules governing its jurisdiction and processes, please refer to www.afca.org.au.

You should read the following important information before making a decision to invest in The Fund: → "Cooling Off". Go to Part G of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

9. More Information

Fund Performance and Size

If you are interested in:

- up to date performance of The Fund
- the latest investment mix of The Fund
- current unit prices or
- the current size of The Fund,

then ask your financial adviser or go to www.fundhost.com.au. Your financial adviser will give you paper copies of the information free of charge. You can always call us, our details are at the beginning of this PDS. Again, up to date information is always free of charge.

Don't forget that any past returns are just that, just because they happened doesn't mean they will happen again. Returns are volatile and may go up and down significantly and sometimes quickly.

Investing via an IDPS

When you invest via an IDPS, it is the IDPS operator which becomes the investor in The Fund (not you). It follows that the IDPS operator has the rights of an investor and can exercise them (or not) in accordance with their arrangements with you. This means for example, that you generally cannot vote on units held in The Fund and you do not have cooling off rights in respect of any units held in The Fund. Speak with the IDPS operator to determine whether any cooling off rights are available to you through the service.

We are not responsible for the operation of any IDPS through which you invest.

Indirect investors complete the application forms for the IDPS and receive reports from that operator, not from us. The minimum investment, balance and withdrawal amounts may be different. You should also take into account the fees and charges of the IDPS operator as these will be in addition to the fees paid in connection with an investment in The Fund.

Enquiries and complaints about the IDPS should be directed to the IDPS operator and not to us. You can however still rely on the information in this PDS. In addition to reading this PDS, you should read the document that explains the IDPS.

All investors are able to access Fundhost's complaints procedures outlined above. If your complaint concerns the operation of the IDPS you should contact the IDPS operator directly.

Keeping you Informed

We will:

- confirm every transaction you make (except savings plan transactions)
- soon after June each year send you a report to help you with your tax return
- each year (around September) make the accounts of The Fund available to you on our website
- send you your annual statement and
- notify you of any material changes to this PDS and any other significant event as required by law.

When The Fund has 100 investors or more, it will be considered a "disclosing entity" for the purposes of the Corporations Act. This means The Fund is subject to regular reporting and disclosure obligations. Copies of any documents lodged with ASIC in relation to The Fund may be obtained from, or can be inspected at, an ASIC office. Investors have a right to obtain a copy, free of charge, in respect of The Fund, of the most recent annual financial report and any half-yearly financial report lodged with ASIC after that most recent annual financial report.

When Fundhost becomes aware of material information, we will ensure that this will be made available as soon as practicable on our website www.fundhost.com.au.
