

# Target Market Determination – Third Link Growth Fund

---

## Legal disclaimer

This Target Market Determination (**TMD**) is required under section 994B of the *Corporations Act 2001* (Cth) (the **Act**). It sets out the class of consumers for whom the product, including its key attributes, would likely be consistent with their likely objectives, financial situation and needs. In addition, the TMD outlines the triggers to review the target market and certain other information. It forms part of Fundhost's design and distribution arrangements for the Maven Smaller Companies Fund (**Fund**).

This document is **not** a product disclosure statement and is **not** a summary of the product features or terms of the Fund. This document does not take into account any person's individual objectives, financial situation or needs. Persons interested in acquiring this product should carefully read the Product Disclosure Statement (**PDS**) for the Fund before making a decision whether to buy this product.

Important terms used in this TMD are defined in the TMD Definitions which supplement this document. Capitalised terms have the meaning given to them in the product's PDS, unless otherwise defined. The PDS and the TMD Definitions can be obtained by contacting Fundhost on (02) 8223 5400 or at [www.fundhost.com.au](http://www.fundhost.com.au).

## Target Market Summary

This product is likely to be appropriate for a consumer seeking **capital growth** to be used as a **core component** or **satellite/small allocation** of their portfolio where the consumer has a **medium to long** investment timeframe and **high risk/return** profile and requires **monthly** access to capital.

### Description of Target Market

#### TMD indicator key

The Consumer Attributes for which the product is likely to be appropriate have been assessed using a red/amber/green rating methodology with appropriate colour coding:

In target market	Potentially in target market	Not considered in target market
------------------	------------------------------	---------------------------------

#### Instructions

In the tables below, Column 1, Consumer Attributes, indicates a description of the likely objectives, financial situation and needs of the class of consumers that are considering this product. Column 2, TMD indicator, indicates whether a consumer meeting the attribute in column 1 is likely to be in the target market for this product.

Generally, a consumer is unlikely to be in the target market for the product if:

- **one or more** of their Consumer Attributes correspond to a **red** rating, or
- **three or more** of their Consumer Attributes correspond to an **amber** rating.

#### Investment products and diversification

A consumer (or class of consumer) may intend to hold a product as part of a diversified portfolio (typically with an intended product use of *satellite/small allocation* or *core component*). In such circumstances, the product should be assessed against the consumer's attributes for the relevant portion of the portfolio, rather than the consumer's portfolio as a whole. For example, a consumer may seek to construct a conservative portfolio with a satellite/small allocation to growth assets. In this case, it may be likely that a product with a *High* or *Very High* risk/return profile is consistent with the consumer's objectives for that allocation notwithstanding that the risk/return profile of the consumer as a whole is *Low* or *Medium*. In making this assessment, distributors should consider all features of a product (including its key attributes).

Consumer Attributes	TMD Indicator	Fund description including key attributes
<b>Consumer's investment objective</b>		
Capital Growth	In target market	This product aims to deliver capital growth from a portfolio of primarily listed Australian equities with some income via dividends and franking credits.
