1 ABOUT FUNDHOST

Fundhost

Fundhost is a public company that acts as the responsible entity and provides essential services to The Fund. Fundhost's core business is to operate registered managed investment schemes and provide compliance, administration and registry services. We are responsible for the day to day operations of The Fund and have appointed Montgomery to manage the assets of The Fund.

About Montgomery

Montgomery is the investment manager of The Fund. Established in 2010, Montgomery is a boutique investment manager owned by its founder and staff. Roger Montgomery is Founder and Chairman and the executive team have significant experience in investing, banking and funds management. Montgomery identifies best-of-breed managers with proven track records and offers these strategies to retail and wholesale investors in Australia.

Montgomery team members are directly invested in these funds, ensuring Montgomery's interests are aligned with investors.

Governed by Partnership, Investment Management and Distribution Agreements, Montgomery has appointed Australian Eagle Asset Management Pty Limited (ABN 89 629 484 840, Authorised Rep No. 001269301) as sub-investment manager of The Fund's assets.

Australian Eagle is an Australian boutique fund manager specialising in managing Australian equities since February 2005. Australian Eagle's investment process seeks to buy superior quality Australian businesses with valuation upside providing a sensible risk buffer, holding those investments in the expectation that the longer-term advantages of these companies will lead to an increase in value.

For more information on The Fund's investment process, see section 5 "How we invest your money".

2 HOW THE FUND WORKS

Mechanics

When you invest in The Fund your money (together with all other investors' monies) is gathered in the one place and invested in assets. We have appointed Montgomery to manage The Fund and Montgomery has appointed Australian Eagle as sub-investment manager. Australian Eagle uses its resources, experience and expertise to make the investment decisions.

We have also appointed an independent custodian to hold the assets of The Fund and an independent administrator to provide administration and registry services for The Fund. The custodian's role is limited to holding the assets of The Fund as Fundhost's agent. It has no supervisory role in relation to the operation of The Fund and is not responsible for protecting your interests.

Units

The Fund is a "unit trust". This means your interests in The Fund are represented by "units". Certain rights (such as a right to any income and a right to vote) attach to your units. You may also have obligations in respect of your units.

§ Each unit has a value which we calculate. When you invest, we issue you a number of units depending on the amount you invest. Similarly, when you withdraw from The Fund, we calculate your withdrawal proceeds by reference to the number and value of units you hold at the time of withdrawal. Generally, the price of units will vary as the market value of assets in The Fund rises or falls.

§ Investing and withdrawing

To invest in The Fund, use the application form accompanying this PDS. The following minimum transactions, balance requirements and processing rules generally apply (although we may vary or waive them at our discretion and without notice):

MINIMUM INITIAL INVESTMENT	\$25,000
MINIMUM ADDITIONAL INVESTMENT	\$1,000
MINIMUM WITHDRAWAL	\$1,000
MINIMUM BALANCE	\$5,000

UNIT PRICING FREQUENCY	Each business day.
APPLICATIONS AND WITHDRAWALS PROCESSING	If we receive your correctly completed application and monies or a correctly completed withdrawal request, then we generally process these each business day using the unit price effective for that day. If your request is received before 4pm Sydney time it will be processed using the unit price effective for that day. If your request is received after this time, or on a non-business day, it is treated as having been received before 4pm Sydney time the next business day.

You can increase your units by reinvesting distributions (this will be done automatically unless you tell us otherwise) or by making an additional investment (use the additional investment form to do this), or you can decrease your units by making a withdrawal (simply contact us in writing and tell us how much you need to withdraw). We call this a redemption request. We accept scanned or faxed redemption requests on certain conditions.

§ Delays

Normally once we decide you can withdraw your money (usually this happens within 5 business days of receipt of your withdrawal request), we process the request within 5 business days (although the constitution for The Fund allows us 180 days), and pay funds to your account.

In certain circumstances, such as a freeze on withdrawals or where The Fund is illiquid (as defined in the Corporations Act), you may have to wait a longer period of time before you can redeem your investment.

If The Fund is not sufficiently liquid then you will only be permitted to withdraw if we make a withdrawal offer to all investors in accordance with The Fund constitution and Corporations Act.

§ Compulsory redemptions

In some circumstances we may also compulsorily redeem your units, for example, where we suspect that a law prohibits you from being an investor in The Fund.

Distributions

Any income distributions are generally paid semi-annually (as at 30 June and 31 December each year) and can be reinvested in full or paid out entirely to the financial institution account nominated on your application form. You can indicate your choice on the application form. If you do not make a choice, then distributions will be reinvested. Any distributions reinvested are reinvested at the ex-distribution mid-price.

Distribution payments are typically made within 20 business days after the end of the distribution period. Distributions will not be paid by cheque.

We generally calculate income distributions based on The Fund's net income at the end of the distribution period divided by the number of units on issue.

We distribute all taxable income to investors each year, including any taxable capital gains. Distributions may also carry imputation or other tax credits.

You should read the following important information before making a decision to invest in The Fund: § "Investing and withdrawing" and § "Delays". You should read the following important information before making a decision to invest in The Fund: § "Benefits and features". Go to Part B of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

4 RISKS OF MANAGED INVESTMENT SCHEMES

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

§ Significant risks

The significant risks of The Fund include:

- o **Concentration risk:** The Fund typically invests in a relatively concentrated portfolio of 25 to 35 high conviction stocks listed on the ASX. The value of The Fund's investments may be more affected by any single adverse economic, political or regulatory event than a more diversified portfolio.
- o **Counterparty risk:** Losses can be incurred if a counterparty (such as a broker) defaults on their contractual obligations or experiences financial difficulty.
- o **Cyber risk:** There is a risk of fraud, data loss, business disruption or damage to the information of The Fund or to investors' personal information as a result of a threat or failure to protect the information or personal data stored within the IT systems and networks of the responsible entity or other service providers.
- o **Fund risk:** The Fund could terminate (for example, at a date we decide), fees and expenses could change (although we would give you at least 30 days' notice where practicable if fees were to increase), we could be replaced as responsible entity and our management and staff could change. Investing in The Fund may give different results than investing individually because of accrued income or capital gains and the consequences of others investing and withdrawing.
- o **Interest rate risk:** The capital value or income of a security held by The Fund may be adversely affected by interest rate movements.
- o **Investment management risk:** There is a risk that Australian Eagle will not perform to expectation or factors such as changes to the investment team may affect The Fund's performance.
- o **Liquidity risk:** Access to your money may be delayed (see Section 2 "How The Fund works" and "Delays"). Overall market liquidity can make it difficult to trade profitably and to realise assets in a timely fashion to meet withdrawal requests. Units in The Fund are not quoted on any stock exchange so you cannot sell them through a stockbroker.

- o **Market risk:** Economic, technological, climate, political or legal conditions, interest rates and even market sentiment, can (and do) change, and these changes can affect the value of the investments in The Fund.
- o **Regulatory risk:** The value or tax treatment of The Fund or its investments, or the effectiveness of The Fund's investment strategy, may be adversely affected by changes in government (including taxation) policies, regulations and laws affecting registered managed investment schemes, or changes in generally accepted accounting policies or valuation methods.

§ Risks applicable to managed funds generally

Other significant risks relevant to many managed funds include the value of investments will vary, the level of returns will vary, future returns may differ from past returns, and returns are not guaranteed. You may lose your money.

The level of risk for each person will vary depending on a range of factors, including age, investment time frames, where other parts of your wealth are invested and your risk tolerance. These risks can be managed but cannot be completely eliminated. You can adopt tools to help you manage your own risk.

You should read the following important information before making a decision to invest in The Fund: § "Risks in general". Go to Part C of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

5 HOW WE INVEST YOUR MONEY

You should consider the likely investment return, risk and your investment timeframe when choosing a fund to invest in.

FUND DESCRIPTION	The Fund aims to provide long-term capital growth investing in a concentrated or high-conviction portfolio of 25 to 35 companies listed on the ASX. Australian Eagle seeks to buy superior quality listed companies with a sensible risk buffer and hold those investments in the expectation that the longer-term advantages of these companies will lead to an increase in value. The process of identifying these companies is derived from the same fundamental bottom-up research process Australian Eagle has consistently applied since its founding in 2005.																
INVESTMENT RETURN OBJECTIVE	The Fund aims to outperform the S&P/ASX 300 Accumulation Index over a rolling 5 year period. Note the investment return objective is not intended to be a forecast. It is merely an indication of what The Fund aims to achieve over the medium to longer term on the assumption that equity markets remain relatively stable throughout the investment term. The Fund may not be successful in meeting this objective. Returns are not guaranteed. § Australian Eagle has developed an investment process to help achieve the investment return objective.

6 FEES AND COSTS

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask The Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Information in the following table can be used to compare costs between different managed investment schemes. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of The Fund as a whole.

Fees and costs summary

Australian Eagle Equities Fund

TYPE OF FEE OR COST	AMOUNT	HOW AND WHEN PAID
Ongoing annual fees and costs¹		
Management fees and costs^{2*} The fees and costs for managing your investment	0.89% pa	Calculated and accrued daily and paid monthly in arrears.
Performance fees Amounts deducted from your investment in relation to the performance of the product	Nil	Not applicable
Transaction costs[*] The costs incurred by the scheme when buying or selling assets	Nil	These costs are expressed net of any amount recovered by the buy-sell spread and are generally paid as incurred.
Member activity related fees and costs (fees for services³ or when your money moves in or out of the scheme)		
Establishment fee The fee to open your investment	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not applicable
Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme	+0.25% / -0.25%	Calculated as a percentage of the mid unit-price. Paid from investors' money when an investor applies to purchase or redeem units. Retained by The Fund.
Withdrawal fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit fee The fee to close your investment	Nil	Not applicable
Switching fee The fee for changing investment options	Nil	Not applicable

¹All fees are expressed as a percentage of net asset value of The Fund excluding accrued fees.

²A portion of this fee can be negotiated with wholesale clients only.

³For information on service fees, please see "Additional explanation of fees and costs".

Any item marked with an asterisk () is an estimate. Please refer to our website for any updates on these estimates which are not considered to be materially adverse from a retail investor's point of view.

Example of annual fees and costs

This table gives an example of how the ongoing fees and costs for The Fund can affect your investment over a one-year period. You should use this table to compare The Fund with other managed investment schemes.

EXAMPLE	BALANCE OF \$50,000 INCLUDING A CONTRIBUTION OF \$5,000 DURING THE YEAR	
CONTRIBUTION FEES	Nil	For every additional \$5,000 you put in, you may be charged \$0.
PLUS Management fees and costs*	0.89% pa	And, for every \$50,000 you have in The Fund you will be charged or have deducted from your investment \$445 each year.
PLUS Performance fees	Nil	And, you will be charged or have deducted from your investment \$0 in performance fees each year.
PLUS Transaction costs*	Nil	And, you will be charged or have deducted from your investment \$0 in net transaction costs each year.
EQUALS COST OF THE FUND	0.89% pa	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$445 each year. What it costs you will depend on the fees you negotiate.

When calculating ongoing annual fees and costs in this table, the law says we must assume that the value of your investment remains at \$50,000 and The Fund's unit price does not fluctuate. Ongoing annual fees and costs actually incurred will depend on the market value of your investment and the timing of your contributions (including any reinvestment of distributions). The example assumes no abnormal expenses are incurred, no service fees are charged and that fees are not individually negotiated. Totals may appear incorrect due to rounding.

Any item marked with an asterisk () is an estimate. Please refer to our website for any updates on these estimates which are not considered to be materially adverse from a retail investor's point of view.

If you would like to calculate the effect of fees and costs on your investment you can visit the ASIC website (www.moneysmart.gov.au) and use their managed investment fee calculator.

§ Additional explanation of fees and costs

About management fees and costs

The management fees and costs include Fundhost's fees, Montgomery's fees, custody fees, ordinary and abnormal expenses and any indirect costs. Fees payable to Fundhost and Montgomery (who in turn pays Australian Eagle from its fees) are calculated and accrued daily based on the net asset value of The Fund excluding accrued fees and are paid monthly in arrears. Management fees and costs paid out of Fund assets reduce the net asset value of The Fund and are reflected in the unit price. Management fees and costs exclude transaction costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through buy-sell spreads).

Indirect costs form part of management fees and costs and include fees and expenses arising from any investment which qualifies as an interposed vehicle (e.g. any underlying fund that The Fund may invest in) and certain OTC derivative costs. The Fund's indirect costs are estimated to be nil. Actual indirect costs for future years may differ.

The ordinary expenses for The Fund are the ordinary and every day expenses incurred in operating The Fund and are deducted from the assets of The Fund as and when they are incurred. The constitution of The Fund provides that expenses incurred by us in relation to the proper performance of our duties in respect of The Fund are payable or reimbursable out of the assets of The Fund and are unlimited. We reserve the right to recover abnormal expenses from The Fund. Abnormal expenses are expected to occur infrequently and may include (without limitation) costs of litigation to protect investors' rights, costs to defend claims in relation to The Fund, investor meetings and termination and wind up costs.

Management fees and costs are paid from the Fund but are capped at 0.89% p.a. of the net asset value of the Fund. Abnormal expenses are not included in the fee cap. If actual management fees and costs are lower than this, then the lower amount is charged to the Fund. If they are more, they are paid by Montgomery.

Performance fee

No performance fee is payable.

Transaction costs

Gross transaction costs include brokerage, settlement costs, currency transactions, and clearing and stamp duty costs. When you invest in The Fund, Australian Eagle may buy investments, and incur these costs. When you withdraw, Australian Eagle may sell investments so we can pay your cash to you, and incur these costs. These costs are also incurred in connection with day to day trading within The Fund. Some of these costs are recovered through the buy-sell spread. A buy-sell spread is an adjustment to the unit price reflecting our estimate of the transaction costs that may be incurred as a result of the purchase/sale of assets arising from the buying/selling of units. This adjustment ensures that existing investors do not pay costs associated with other investors acquiring/withdrawing units from The Fund. The buy-sell spread is reflected in the buy/sell unit price. Currently, our buy-sell spread is estimated to be 0.50% of the unit price (that is +0.25% on the entry price and -0.25% on the exit price). So if the net asset value of each unit is \$1.00, on entry we adjust the unit price up approximately 0.25% (up 0.25 cents) and on exit we adjust the unit price down approximately 0.25% (down 0.25 cents).

The buy-sell spread is not paid to Fundhost, Montgomery or Australian Eagle.

Our estimate of the total transaction costs for The Fund for the period from inception to 30 June 2025 was calculated using The Fund's actual transactions during that period. Recovery figures were calculated on the same basis. Figures may appear incorrect due to rounding.

We expect the total transaction costs to vary from year to year as they will be impacted by the Fund's volume of trading, brokerage arrangements and other factors. We expect the amount recovered through the buy-sell spread to vary from year to year as it will be impacted by the volume of applications and withdrawals and any changes in the buy-sell spread for the Fund. The net transaction costs is the difference between these two amounts. All of these amounts are expressed as a percentage of The Fund's average net asset value for the year. Based on an average account balance of \$50,000 over a one year period, the net transaction costs are nil..

GROSS TRANSACTION COSTS	RECOVERY THROUGH BUY-SELL SPREAD	NET TRANSACTION COSTS
0.09%	0.33%	Nil

Service fees

If you need Fundhost to do something special for you, we may charge you a fee. These special fees vary depending on what you ask us to do.

Can the fees change or be updated?

Yes, all fees can change. Reasons might include changing economic conditions and changes in regulation. However, we will give you 30 days' written notice of any increase to fees where

practicable. The constitution for The Fund sets the maximum amount we can charge for all fees. If we wished to raise fees above the amounts allowed for in The Fund's constitution, we would need the approval of investors.

Please refer to our website for any updates on our estimates of any fees and costs (including indirect costs and transaction costs) which are not considered to be materially adverse from a retail investor's point of view. Remember, past performance is not an indicator of future performance and any fee or cost for a given year may not be repeated in a future year.

Adviser remuneration

No commissions will be paid by us to financial advisers. Additional fees may be paid by you to your financial adviser if one is consulted. You should refer to the Statement of Advice they give you in which details of the fees are set out.

You should read the following important information before making a decision to invest in The Fund: § "Additional explanation of fees and costs". Go to Part E of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

7 HOW MANAGED INVESTMENT SCHEMES ARE TAXED

§ Investing in a registered managed investment scheme (like The Fund) is likely to have tax consequences and you are strongly advised to seek professional tax advice.

Registered managed investment schemes (like The Fund) do not pay tax on behalf of unit holders. Unit holders are assessed for tax on any income and capital gains generated by The Fund.

You should read the following important information before making a decision to invest in The Fund: § "Paying tax". Go to Part F of the Information Booklet available at www.fundhost.com.au. Note the information may change between the time when you read this PDS and the day when you acquire the product.

8 HOW TO APPLY

How to invest

You generally need to invest at least \$25,000 initially. Use the application form accompanying this PDS. The application form contains detailed instructions and will ask you to provide the identification documents required under the Anti-Money Laundering and Counter Terrorism Financing Act 2006 (AML CTF Act). We do not earn interest, nor do we pay you interest on application monies held, prior to the time we issue units to you.

Additional investments can be made at any time in writing, generally the minimum amount for additional investments is \$1,000.

Cooling off

If you decide that you don't want the units we have issued you in The Fund, we must repay your money to you.

We are allowed to (and generally do) make adjustments for market movements up or down, as well as any tax and reasonable transaction and administration costs. For example, if you invest \$25,000 and the value of the units falls by 1% between the time you invest and the time we receive notification that you wish to withdraw your investment, we may charge you on account of the reduced unit value and you would incur a buy spread of +0.25% and a sell spread of -0.25%. This means that \$24,626 would be transferred from The Fund back to you.

If you change your mind, you have 14 days to tell us, starting on the earlier of when we send you confirmation that you are invested or the end of the 5th business day after the day on which we issue the units to you.

This right terminates immediately if you exercise a right or power under the terms of the product, such as transferring your units or voting on any units held by you. For any subsequent investments made under a distribution reinvestment plan, cooling off rights do not apply.

Enquiries and complaints

Contact us during business hours (9am to 5pm on Sydney business days). Our details are at the beginning of this PDS. It helps us if you have your investor number handy when you contact us.

If you have a complaint, it is better it be made in writing although you can always call us of course. Complaints will always be acknowledged and responded to as soon as practicable. Typically you will receive a response within 14 days, though we have a 30 day maximum response time frame.

If you have invested through an IDPS you can access Fundhost's complaints procedures directly.

If you are unhappy with our response to your complaint you can contact the independent Australian Financial Complaints Authority (AFCA).

9 MORE INFORMATION

Fund performance and size

If you are interested in:

- o up to date performance of The Fund
- o the latest investment mix of The Fund
- o current unit prices or
- o the current size of The Fund,

then ask your financial adviser or go to www.fundhost.com.au. Your financial adviser will give you paper copies of the information free of charge. You can always call us, our details are at the beginning of this PDS. Again, up to date information is always free of charge.

Don't forget that any past returns are just that, just because they happened doesn't mean they will happen again. Returns are volatile and may go up and down significantly and sometimes quickly.

Investing via an IDPS

When you invest via an IDPS, it is the IDPS operator which becomes the investor in The Fund (not you). It follows that the IDPS operator has the rights of an investor and can exercise them (or not) in accordance with their arrangements with you. This means for example, that you generally cannot vote on units held in The Fund and you do not have cooling off rights in respect of any units held in The Fund. Speak with the IDPS operator to determine whether any cooling off rights are available to you through the service.

We are not responsible for the operation of any IDPS through which you invest.

Indirect investors complete the application forms for the IDPS and receive reports from that operator, not from us. The minimum investment, balance and withdrawal amounts may be different. You should also take into account the fees and charges of the IDPS operator as these will be in addition to the fees paid in connection with an investment in The Fund.

Enquiries and complaints about the IDPS should be directed to the IDPS operator and not to us. You can however still rely on the information in this PDS. In addition to reading this PDS, you should read the document that explains the IDPS.

All investors (regardless of whether you hold units in The Fund directly or hold units indirectly via an IDPS) are able to access Fundhost's complaints procedures outlined above. For indirect investors, if your complaint concerns the operation of the IDPS you should contact the IDPS operator directly.

Investors have a right to obtain a copy, free of charge, in respect of The Fund, of the most recent annual financial report and any half-yearly financial report lodged with ASIC after that most recent annual financial report but before the date of this PDS.
